

Introduction to the National Standards for Community Engagement

Free Workshop

The National Standards for Community Engagement were developed with the involvement of over 500 people from communities and agencies in Scotland. They are a practical tool to help improve the experience of all participants involved in community engagement to achieve the highest quality of process and results.

In this workshop, participants will learn about:

- The ten National Standards for Community Engagement.
- Ways they can use this tool to build and improve effective community engagement.

This workshop is for volunteers and community activists who are involved in community and voluntary organisations and in Community Planning.
